

Welcome

La Marina de València is pleased to welcome you to our docks. To make your stay with us even easier, Marina Info contains information about our activity as well as other services and useful information for the crews. This guide contains all the telephones, contact details and links you will need to know and get around our facilities. Here, you will also find a selection of cultural visits and sightseeing tours in the city —tourist destination of thousands of travellers. One of our main aims here is to make your stay comfortable.

Marina Info reflects the commitment of the entity to our users and customers. With this aim, La Marina de València maintains an ongoing and fluid dialogue with its users through different channels and formats.

The location of the dock, as well as the range of possibilities it offers, have put La Marina de Valencia among the main destinations for yachts. We are customer-orientated and our ethos is to offer them the best experience. We want to be a key destination in the Mediterranean and our aspiration is Valencia to be recommended for berthing by our own customers.

La Marina de València is home to a varied gastronomic scene. Choose from 18 restaurants to enjoy the best local and international cuisine. In addition, we offer a wide variety of water activities, such as scuba diving and Jet Ski rides, which both the boater and the traveler who visits us can enjoy.

The satisfaction of each of our customers is our main motivation. To achieve it, we have the best professionals always willing to provide an excellent customer service.

The Marina

Competitive rates, best performance and highly qualified staff, always available to help the vessels, make up our marine DNA. La Marina de València, a privileged dock in the Mediterranean shore, currently has more than 800 berths with sizes from 7 to 150 meters and an average 7,5 meters draft. We also have a number of courtesy moorings available to facilitate the navigation of the vessels berthed in our dock, as well as for boaters arriving from other parts of the coast.

La Marina de València comprises 2 docks: the Outer Marinas (North and South) and the inner dock, which harbours the renowned T-dock superyacht pier. The most exclusive area of the harbour is the T-dock Superyacht Marina, specially developed to accommodate yachts from 25 to 150 meters LOA in its 42 berths, and the possibility to accommodate even longer vessels.

In La Marina de València you will find a range of services offered by different marine companies; including mechanical and electrical engineering, painting and repairs, as well as complementary services for any type of vessel. To guarantee your safety, we have over 200 surveillance cameras operating day and night.

La Marina de València has been awarded different quality certificates. Currently, it holds the Q mark for tourism quality awarded by the ICTE (Spanish Institute for Tourism Quality).

Among other major events, La Marina has been host to two editions of the America's Cup, the RC44 Valencia Cup, three TP52 events (52 super series), the Trophée Clairefontaine, the Route des Princes, the Valencia Boat Show, the Soto 40 European Championship and the Melges 40 Valencia Week.
